

## Guidelines for Visitors

At Smith Village, we faithfully follow all basic precautions to mitigate the spread of COVID-19—even though the majority of our residents are fully vaccinated and our community is in Phase 4 of the Restore Illinois Plan.

### **INDOOR VISITS**

All visitors must

- Comply with guidelines from the Chicago and Illinois Departments of Public Health
- Participate in pre-screening for skilled nursing care visits and onsite screenings to meet CDC standards that allow a visit
- Arrive at Smith Village wearing their own face mask covering their nose and mouth and continue wearing a mask for their entire visit
- Register with the Receptionist for a non-contact temperature check and sanitize their hands
- Not eat or drink during a visit because it requires removing a mask
- Observe 6-foot social distancing between each person during a visit
- Conform to Chicago's travel advisories
- Cooperate with a Smith Village staff member who ensures CDC protocols are followed at the beginning of and during a visit

In you experience symptoms of COVID-19 within three days of visiting Smith Village, immediately call 773-474-7300 and ask for the administration office.

#### ***With skilled nursing care residents***

Two visitors, from the same household and 18-years or older, can plan a 45-minute visit in a common area set to meet our safety standards. Contact Mary Beth O'Brien at [MOBrien@SmithSeniorLiving.org](mailto:MOBrien@SmithSeniorLiving.org) or 773-474-7363 at least 72 hours in advance. Please provide the names and phone numbers of each visitor.

#### ***With independent living residents***

Residents and their guests make their own plans to visit in apartments and are expected to follow all the requirements listed on this page.

#### ***With assisted living residents***

Smith Village hopes to announce plans for indoor visits with assisted living residents very soon. We appreciate your patience.

***Effective February 23, 2021***
